DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2 & 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuno et al. (US Patent No. 5,103,652). Mizuno discloses a scroll compressor and scroll type refrigerator comprising: a two stage compression system divided into two stages, operating at evaporation temperature of –45 degrees (f) to – 70 degrees (f), refrigerant circuit piping (22,23), a scroll compress (1) with a sealed casing (101), compression sections consisting of a stationary scroll (106) and a revolving scroll (107) and thereby connected to a plurality of refrigerant pipes. Moreover the stationary scroll compression ratio is 5 and the set volume ratio is 3.9.

Allowable Subject Matter

Claims 4 & 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
